

The Alternative Sentencing Program at Transitions Recovery Program successfully provides drug and alcohol rehabilitation services to criminal defendants in lieu of incarceration. The program is specifically designed to provide individualized treatment plans that address substance abuse and the contributing stressors that led to the addiction.

Call us today and get the help you need to overcome your addiction so that you can return to your family and job as a healthier, happier human being. Transitions Recovery Program is approved by most insurance companies and has one of the most cost effective rehabilitation programs to date. All of our services are completely confidential and we are experienced in providing support throughout your recovery process and legal proceedings.

*A Commitment to Self,
Mind, Body and Spirit*

The road to recovery starts by asking for help.

We treat alcohol and drug addiction, critical incident trauma, depression, job jeopardy, post traumatic stress, family dysfunction, anxiety, and anger management.

Call us today and let us help you overcome your addiction.

ALTERNATIVE SENTENCING PROGRAM

Alternative Sentencing Program

The cornerstone of our drug and alcohol addiction treatment philosophy is that recovery from chemical dependency is achievable -- even for those who feel overwhelmed with despair and helplessness. From DUI, possession, and drug related offenses, Transitions Recovery Program has been able to provide patients and law firms with alternatives to incarceration.

65 percent of the 2.3 million inmates in American prisons meet the standard medical criteria for drug and alcohol addiction and abuse. Furthermore, the number of incarcerated adults rose by 33 percent from 1996 to 2006 and the number of inmates with addiction problems rose by 43 percent during that time period. These statistics are daunting, and demonstrate the need for quality alternative sentencing treatment programs.

Transitions Recovery Program is a nationally accredited, state-licensed drug and alcohol rehabilitation center of excellence that is committed to providing 24-hour rehabilitation services to attorneys, defendants, and their families. Research shows that effective treatment for alcohol and drug addiction dramatically reduces an individual's criminal behavior.

As proud sponsors of the Florida Association of Criminal Defense Attorneys, Transitions Recovery Program has been successfully working with the judicial system for 25 years. Our Alternative Sentencing Program is a Drug Court and Probation Approved Program that will provide your client with an alternative to incarceration where he/she will gain the tools necessary to overcome drug and alcohol addiction.

Experienced Court Reporting

Transitions Recovery Program's clinical team will furnish therapeutic and psychiatric progress reports, urinalysis reports, and discharge plans to assist your firm in providing accurate information required by judges, probation officers, and pre-trial personnel.

Transitions Recovery Program's legal liaison is always available for court appearances in the tri-county area to answer any questions and assist counsel regarding the patient's progress in treatment.

Alternative Sentencing Program Includes:

- Individual Counseling
- Group Therapy
- Relapse Prevention
- Stress Management
- Coping Skills
- Anger Management
- Depression & Anxiety
- Healthy Relationships
- Leisure Counseling
- 12-Step Meetings

Continuing Care Services

The recovery process does not end when a client completes our drug and alcohol rehabilitation program. Continuing care is essential for long-term recovery when clients return home and are back on the job.

Transitions provides unlimited continuing care services that include relapse prevention, NA/AA meetings, aftercare support therapy, and optional individual and family counseling. Our treatment team will work with the individual, judge, attorney, probation officer, and family to set up an aftercare plan. Clients and law firms are welcome to call our 24-hour intervention line for continued support.
